#### **Product Description**

#### Shipping Cost High Capacity Steel Foldable Stacking Rack For Stackable Storage Rack

**Product Description** 

#### QiFei Stack Racking

Stack racking refers to a storage system where products are stacked vertically on racks or shelves.

- 1, It's a high-density storage method that maximizes vertical space utilization in a warehouse compared to single-level pallet or bin storage.
- 2, Products are stored in stacked arrangements, often two or more pallets or bins high, on sturdy metal or wooden racks.
- 3, Stack racking systems use forklifts or other material handling equipment to place and retrieve the stacked goods.
- 4, Requires careful planning and load calculations to ensure the racks can support the weight of the stacked goods.
- 5, Good for storing lightweight, durable items that can be safely stacked on top of each other.
- 6, Typically used in industries like retail, manufacturing, and distribution where high-volume storage is needed.

	Brand name	QiFei		
		Material	high-grade Q235 Cold Rolled Steel	
		Color	customized	
		Load capacity	customized	
	Product dotails		L:1200/1500/2000 mm	
		Size for reference(mm) W:600 mm		
			H:1200/1500/2000/3000mm	
		Layers	adjusted	
		Feature	corrosion protection, easy to assemble and dismantle	
	Payment terms	ayment terms by T/T		
	Special service	Special service OEM&ODM are welcomed, specialized one-stop service		
	MOQ	10 pcs (Supply ability:5000 pieces per month)		
	Function	widely used, suitable for most warehouse storage and supermarket goods		
	Our advantage perfect after-sales service, offer product installation guide			
	Packing	beam and upright in bu	ubble film, shelf in export cartons, safety for shipment
